## Title: Bio Rejuvenation

**Course Description:** Too often, dental care focuses on illness and symptoms. BioRejuvenation Dentistry transforms dental care by adopting a new paradigm – one that establishes the goal of bringing the patient to the highest level of health possible. BioRejuvenation Dentistry replicates the form and function found in excellent natural dental biology.

### Speaker—Dr. Alan Rosen

A Springfield native and graduate of Greenwood Laboratory School, Dr. Alan M. Rosen received a BA degree from Rice University in 1991. After a three-year career touring as a professional golfer, Dr. Rosen turned his efforts and focus to dentistry graduating with honors from the University of Missouri-Kansas City School of Dentistry.

Cosmetics and Temporomandibular Joint (TMJ) disorders have been Dr. Rosen's primary post-graduate educational focus which led him to the Stewart Center where he trained every 2 months in Dallas, TX, for almost two years. The Stewart Center is where Dr. Rosen learned the science and art of BioRejuvenation dentistry; a process using addition (bonding) dentistry in order to build the entire mouth to an ideal form and function without touching the patient's natural teeth.

Dr. Rosen has also completed his Standard Proficiency Dental Laser Certification in both Er:Yag and Nd:Yag wavelengths and he is a dental product evaluator. He has attended the Engel Institute and learned guided 3D implant placement. Dr. Rosen is a member of the American Dental Association, American Academy of Cosmetic Dentistry, American Academy of Implant Dentistry, Missouri Dental Association, and the Greater Springfield Dental Society serving as President in 2008-2009.

Dr. Rosen has been married to Darla since 1995. They have two daughters, Alexandra (20) and Reagan (17), and a son Benjamin (12). He has been a member of the Southeast Rotary Club since 2004 and has served as Greenwood Laboratory School Alumni Association President. He enjoys various forms of physical fitness, and is passionate about cycling, scuba diving, cooking BBQ on his Big Green Egg, traveling, and spending time with his family.

**January 27, 2022**

**ADA C.E.R.P.**® | Continuing Education  
Recognition Program

GSDS is an ADA CERP Recognized Provider Approved by MDA. ADA CERP is a service of the ADA to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. GSDS designates this activity for the **2 continuing education credits**.

#### Course Objectives:

You will learn the fundamentals of BioRejuvenation Dentistry and see how many patients have benefited from this form of dentistry.

You will understand how the mouth can be restored to ideal biology with addition composite bonding without any anesthetic or drilling.

In addition, Dr. Rosen will give 3 general pearls that will help make dentistry better for you starting Monday morning!
